

Traffic Control Products

- **Attractive**
- **Long service life**
- **Environment friendly**
- **Quality product**

Gatton Sawmilling Company's heavy duty traffic control products are manufactured using appearance grade timber in large size sections for strength and serviceability. By using species of proven durability and giving careful attention to grading and defect docking, we ensure that you receive a product which will give superior service over its long life.

All products are supplied fully finished and ready to assemble:

- Components are cut to length
- Edges are dressed (no splinters)
- holes are pre-cut
- Components are CCA treated after machining
- Rail ends are sized to ensure an accurate fit
